**FINTECH PRODUCT EXECUTION | PRODUCT OPERATIONS | ANALYTICS & AUTOMATION**

## PROFESSIONAL SUMMARY

Fintech product-operations professional with 6+ years of experience across investment and payment products. Lead Product Operations for a consumer-facing fixed-income platform handling ■800+ Cr in monthly transaction volume. Hands-on experience in launch execution, customer and operational issue investigation, workflow automation, UAT, data analysis, AML/KYC controls, and cross-functional delivery. Comfortable working directly with operational data and partnering with Product and Engineering to improve product journeys, reliability, and scale.

## PROFESSIONAL EXPERIENCE

**Wint Wealth | Bengaluru, India | Product Operations Analyst | June 2023 – October 2026**

- Lead Product Operations for a consumer investment platform that scaled from ■50 Cr to ■800+ Cr in monthly transaction volume, supporting Bonds, Bond SIPs, FDs, and RDs.
- Work closely with Product, Growth, Risk & Credit, Legal, Finance, Engineering, and external partners to execute launches, improve product journeys, and resolve operational dependencies.
- Drive bond launch readiness and post-launch operations, including inventory management, listing accuracy, subscription monitoring, and repayment lifecycle coordination.
- Use operational data and issue patterns to identify process gaps, support product improvements, evaluate new offerings, and surface opportunities to improve margins and customer adoption.
- Automated KYC verification workflows, reducing errors by 45% and onboarding turnaround time by 30%.
- Built automated Slack alerts for record dates, repayment schedules, and FD rate updates, reducing manual tracking effort by 70–80%.
- Perform UAT, data validation, transaction monitoring, and AML/KYC checks across operational releases and high-volume launches.
- Manage vendor relationships and partner onboarding, including commercial discussions and billing coordination with internal stakeholders.

**Amazon / Amazon Pay | Bengaluru, India | Customer Support Associate → Interim SME | August 2020 – June 2023**

- Led a Six Sigma DMAIC initiative that reduced response and resolution time by 30% across India, UK, and US payment operations.
- Investigated complex payment failures, fraud patterns, high-value disputes, and customer escalations across three payment ecosystems.
- Used recurring customer and operational issues to support process improvements; mentored teammates on compliance and fraud workflows.
- Recognized as a Top Performer for eight consecutive quarters.

**PhonePe (via Teleperformance) | Bengaluru, India | Customer Support Associate | August 2019 – April 2020**

- Resolved complex UPI/payment issues and contributed to a process improvement that reduced resolution time by 25%.
